in an entertaining account of his surprisingly strong run for california governor in the 2021 recall election bestselling author commentator and radio host larry elder argues that democrats have systematically failed our country especially black americans throughout his years as a popular la talk radio host larry elder watched california go from bad to worse under a regime of corrupt and ideological liberal management rising rates of crime addiction homelessness immigration and failing schools skyrocketing energy and housing costs crushing anti business regulation and numerous other problems all traceable to democratic policies made life harder for the average californian then came the covid lockdowns school closings mask and vaccine mandates the blm riots the defund the police movement and a general breakdown of law and order in san francisco and la people

began fleeing the state in droves in the midst of all this governor gavin newsom saw fit to drop 12 000 at a trendy french restaurant sparking outrage throughout the state and leading to demands for a recall a special election was held and forty five candidates jumped in though not personally ambitious for office elder was strongly encouraged to run by numerous friends and associates he performed extremely well despite having no money or organization constant sniping from his gop rivals and a relentlessly hostile media that absurdly labeled him the black face of white supremacy which is ironic since elder was the only candidate who paid any attention to the social and economic problems of black people in america now in as goes california elder tells the story of his lightning campaign and derives from it important lessons on how a new generation of republican candidates can fight win and save our country

america at the point of no return the next election is the most important one america has faced in more than a century that s not campaign hype america is divided as almost never before with contesting political factions regarding themselves not as rivals but as enemies and the frightening thing is that in large part they re right the democratic party has become the party of identity politics and every one of those identities is defined against a unifying national heritage of patriotism pride in america s past and hope for a shared future offering only antagonism based on group identity whether race sex or something else the democrats look forward to imposing nationally what they have achieved in california one party rule in a lockdown nation where the ruling class makes every decision and doles out benefits to favored groups against them is a divided republican party gravely misunderstanding the opposition old style republicans still seek bipartisanship and accommodation wrongly assuming that democrats care about playing by the tiresome old rules laid down in the constitution and other fundamental charters of american liberty the new core of the republican party is the populists and nationalists who are tired of losing the party s only hope of victory they are all that stand between the united states as we have traditionally understood it and a revolution less dramatic in appearance but just as consequential as the bolshevik revolution in russia michael anton the author of the most scathing memorable and quoted essay of the 2016 campaign season the flight 93 election which rush limbaugh called one of the greatest columns ever written now explains in depth why the stakes have risen even higher ranging across every hot button political topic of our time from immigration to nationalism to war

and informed by a profound understanding of classical and american political philosophy the stakes will transform the way you view politics and america s future

fifty years ago familiar images of the lottery would have been strange as no state lottery existed then few researchers have uncovered the obscure role lotteries play in the changing composition of american taxation even less is known about what role race plays in this process more than simply taxing those on the social margins the emergence of state lotteries in contemporary american history represents something much more fundamental about state fiscal policy this book not only uncovers the underlying racial factors that contextualize lottery proliferation in the u s but also reveals the racial consequences that lotteries have in terms of redistributing tax liability
