the m i t introductory physics series is the result of a program of careful study planning and development that began in 1960 the education research center at the massachusetts institute of technology formerly the science teaching center was established to study the process of instruction aids thereto and the learning process itself with special reference to science teaching at the university level generous support from a number of foundations provided the means for assembling and maintaining an experienced staff to co operate with members of the institute s physics department in the examination improvement and development of physics curriculum materials for students planning careers in the sciences after careful analysis of objectives and the problems involved preliminary versions of textbooks were prepared tested through classroom use at m i t and other institutions re evaluated rewritten and tried again only then were the final manuscripts undertaken

the m i t introductory physics series is the result of a program of careful study planning and development that began in 1960

in this study of the impact and influence of the new wave in french cinema douglas morrey looks at both the subsequent careers of new wave filmmakers and the work of later film directors and film movements in france this book is organized around a series of key moments from the past 50 years of french cinema in order to show how the meaning and legacy of the new wave have shifted over time and how the priorities approaches and discourses of filmmakers and film critics have changed over the years morrey tackles key concepts such as the auteur the relationship of form and content gender and sexuality intertextuality and rhythm filmmakers discussed include godard truffaut varda chabrol and rohmer plus philippe garrel luc besson leos carax bruno dumont the dardenne brothers christophe honoré françois ozon and jacques audiard

examines how the channel islands have been crucial to britain s successful maritime superiority in the english channel the channel islands have played a key role in both naval warfare and anglo french diplomacy but this has not always been highlighted sufficiently even though britain and france were at war for most of the period 1689 1815 this book considers a wide range of maritime subjects

where the role of the channel islands has been significant such as intelligence gathering piracy and privateering and naval strategy and control of the channel it also examines topics in relation to the channel islands specifically such as surveying and hydrography fortifications trade and channel islands societies it charts changes over time including the impact of technological changes from the wars of louis xiv and william iii through the many anglo french wars of the eighteenth and early nineteenth centuries and includes planning for wars which were anticipated but avoided throughout the issues are discussed from the perspectives of britain france and the channel islands themselves equal weight being given to all three perspectives andrew lambert is professor of war studies at king s college london and one of britain s foremost maritime and naval historians colin partridge is a former consultant to the states of guernsey s fortress guernsey programme for the restoration and interpretation of guernsey s fortifications jean de pr neuf is a senior lecturer at the university of lille and head of the research teaching and studies unit at the historical branch of the french ministry of defence at vincennes

this unique and encyclopedic reference work describes the evolution of the physics of modern shock wave and detonation from the earlier and classical percussion the history of this complex process is first reviewed in a general survey subsequently the subject is treated in more detail and the book is richly illustrated in the form of a picture gallery this book is ideal for everyone professionally interested in shock wave phenomena

1975 was a key year for the women s movement in france through a critical exploration of the politics activism and cultural creativity of that moment this book evaluates the achievements and legacies of second wave french feminism for subsequent waves including the movement s contemporary resurgence

unraveling french cinema provides a much needed introduction to the complexities of french film for students cineastes and the movie loving public looks at the differences between french and american national cinema explores how french directors shape their films around two potentially divergent goals the narration of a story and an elaboration of some theory about film itself demystifies the difficulty of french cinema allowing the american movie goer to enjoy films that are too often perplexing at a first viewing offers extended analyses of classic new wave and contemporary french films including *l'atolante* *adele h* *the rules of the game* and *cache*
